

Information on isolation structures of the Swiss migration regime for the "ISOLATION WATCH" website

If you would like to participate and have information about camp structures in certain locations / cantons, the table below can be filled out.

Please create one document per place (e.g. transit centre Sonnenbühl). Just fill in the categories you have information about, even if it is not all of them. Under the heading "Specials" you are free to note any specific conspicuities such as regulations, incidents, etc. You are also welcome to share links to other sites so that we can get further information.

It is important that you contact us first of all via asylmap@mailo.com, which places / cantons you could work on, so that we don't do double work. The best way is to name the document with the place and send it to asylmap@mailo.com.

Thank you very much for your cooperation and support!

Canton:	
Official name of the asylum accommodation :	
Level (federation/canton) :	
Procedural function or status of the residents :	
Address:	
Operator organization:	
Responsible security organization :	
Building type/ location :	
Capacity/ maximum number or residents :	
Photo:	
Special features (such as special conditions, house rules, incidents, gender-specific etc.):	
Further links:	

Comments on the individual categories:

- **Procedural function or status of the residents:** This means in which part of the procedure the persons are (e.g. extended procedure), which status they have (e.g. negative asylum decision) or whether, for example, only men or minors are living there
- **Operator organization:** Who runs the asylum camp? (e.g. ORS, Salvation Army etc.)
- **Building type / location:** This means information about whether the accommodation is located in a former school, youth centre or similar, whether the accommodation is fenced in, etc. Location means whether the accommodation is very isolated, underground, on a mountain or similar.
- **Special features:** conspicuous features such as special conditions, house rules, incidents, gender-specific, isolation, own experiences etc.
- **Photo:** Great would be a hyperlink with the graphic address of the photo. Right-click on the desired photo, then copy the graphic address. The photos will be published on the website. So no photos with recognizable persons without their consent.
